October 13, 1992

Mr. Clark Smith
460 East 200 North
Beaver, UT 84713

Dear Mr. Smith:

This letter acknowledges receipt of the Notice to conduct exploration operations on the Smith Bros. #4 and #6 unpatented mining claims (T. 31 S., R. 7 W., sec. 24). The Notice has been reviewed for compliance with regulations found in 43 CFR 3809.1-3 and possible conflicts with cultural resources, threatened or endangered plants and animals, and land status. No conflicts with these resources were found and the Notice appears to be in compliance with Federal regulations. The Notice has been accepted under file number UTU-70046. Please use this number in all future correspondence with this office.

A copy of the information provided in your Notice has been forwarded to the Utah Division of Oil, Gas, and Mining (DOGM). Therefore, you will not be required to provide this information to them.

The operations described in your Notice are the only actions considered accepted by the Bureau of Land Management. Any changes in the amount or type of ground disturbance must be submitted to this office as an amendment 15 days prior to initiation. Operations will be inspected twice a year or every 6 months to insure compliance with the Notice and Federal and State regulations.

Surface Management Regulations (43 CFR 3809) require reclamation of all disturbed public land and that reasonable measures be taken to prevent unnecessary or undue degradation of the land. Included with this letter is a set of Reclamation Standards and Standard Operating Procedures to be used during operations and reclamation. Final reclamation must be approved by the BLM before the file will be closed. Any deviation from these standards can necessitate a Notice of Noncompliance and bonding requirements for future work.

RECEIVED

OCT 15 1992

DIVISION OF
OIL GAS & MINING

If your operations extend for more than a year, please advise us of the status of your mining activities on the anniversary of your Notice. A new Notice or amendment will need to be submitted at that time. Acceptance of this Notice will not now, or in the future serve as a determination of the validity of any mining claim to which it may relate.

Thank you for submitting your Notice as it shows your willingness to prevent unnecessary disturbance of our public lands. If you have questions regarding your Notice please contact Gina Pack at this office.

Sincerely,

A handwritten signature in dark ink, appearing to read "Arthur L. Tait", with a stylized flourish at the end.

Arthur L. Tait
Area Manager

Mining Claims Where Disturbance Will Occur

<u>Claim Name</u>	<u>UMC Serial #</u>	<u>Claim Type (Lode, Millsite)</u>
<u>Smith Bros 4</u>	<u>24</u>	<u>Lode</u>
<u>" 6</u>	<u>6</u>	
_____	_____	_____
_____	_____	_____
_____	_____	_____
_____	_____	_____
_____	_____	_____
_____	_____	_____
_____	_____	_____

Activity/Mineral Type: Mining ☒ Exploration ☐

Location of Proposed Activity

Township <u>3/S</u>	South, Range <u>7W</u>	West, Section <u>24</u>	<u>NW</u> 1/4 <u>SE</u> 1/4
Township _____	South, Range _____	West, Section _____	_____ 1/4 _____ 1/4
Township _____	South, Range _____	West, Section _____	_____ 1/4 _____ 1/4
Township _____	South, Range _____	West, Section _____	_____ 1/4 _____ 1/4

Please attach an accurate map of the area. Maps should be scaled to clearly show areas of proposed surface disturbance.

Proposed Operations

Estimated Dates of Operation: _____

Describe the type of operations and how they will be conducted, including the location and size of areas where surface disturbance, structures, facilities, etc., are proposed. Calculate the total acreage of proposed disturbance (One acre = 43,560 sq. ft.):

we would like to blast some rock off a hillside. The vein is on the surface. we just want to get a few truck loads for processing. maybe 30 wide 20 high or 600 sq ft

Access Routes

Describe any proposed improvement of existing roads:

there is an existing jeep road we would like to widen it, by enough to get a 10 wheel dump truck in and out smooth out the bad bumps and big rocks

Describe new roads proposed (include location, length, width, estimated maximum cutbank height, and type of equipment used):

Existing Disturbance

Describe any existing surface disturbance, structures, facilities, etc.. A map or sketch showing existing surface disturbance, structures, facilities, etc. is recommended.

Proposed Reclamation

Describe proposed reclamation procedures or other measures to be taken to prevent unnecessary or undue degradation of public lands:

where we are going to work, is solid rock but when we get to where there is top soil we save it for reclamation

Reclamation of all areas disturbed will be completed to the standards described in 43 CFR 3809.1-3(d) and reasonable measures will be taken to prevent unnecessary or undue degradation of Federal lands during operations.

NOTICE TO OPERATORS

PLEASE KEEP THIS INFORMATION FOR YOUR RECORDS

1. A Notice submitted in relation to the 43 CFR 3809 regulations does not require approval from the BLM. Notification however, is required at least 15 calendar days before commencing operations.
2. When necessary reclamation of the disturbed area has been completed, the Authorized Officer of the BLM shall be notified so that an inspection of the area can be made. The case file will not be closed until the area is inspected and reclamation approved.
3. Generally, information that could be considered proprietary or confidential is not necessary to fulfill Notice requirements. However, information and data submitted and specifically identified by the operator as containing trade secrets or confidential or privileged commercial or financial information should be cited in the text of the notice. This information will not be available for public inspection.
4. Failure of an operator to file a Mining or Exploration Notice, as required by the 43 CFR 3809 regulations, will subject the operator to being served a Notice of Noncompliance or enjoined from the continuation of such operations by a court order until such time as a Notice is filed with the BLM.
5. Completed Notices should be sent to:
